

It is therefore to be understood that various changes, equivalences and modifications may be made in the particular example of the invention without departing from the scope and spirit of the invention as outlined by the appended claims.

LIST OF REFERENCE NUMERALS

1	Magnet
2	Coil
3	Galvanometer
11, 12	Link
21, 22	Coil
30, Q1	Switching Element
31, 32	Magnetic Body
a, b, c, d	Terminal of Coil
R, R2	Current Limiter
A	Rotating Shaft
S	Rotation Direction
I, I1, I2	Induced Current
E1, E2	Electromotive Force
V	Speed
F, F'	Force
B	Magnetic Flux Density
L	Total Length of Coil
L1, L2	Coil
